Amending Part 95 of the Commission's Rules ) RM-\_\_\_\_\_  
and Regulations to Create a Wireless HF )  
Digital Service and for Other Purposes...\_\_\_\_\_)

To the Commission:

**ERRATUM**

COMES NOW the Petitioner, JAMES EDWIN WHEDBEE, and pursuant to Section 1.41 of the Commission's rules and regulations (47 CFR Section 1.41) corrects his Petition for Rulemaking (PRM) as follows:

[1] On page five (5) of his PRM, Petitioner requests that reference to 3650-3700 MHz be struck from the proposed subsection (c) of Section 95.1619, and replaced with 27-27.4 MHz, such that the paragraph reads (and should have read)...

**"§ 95.1619 Policies governing the use of the 27-27.4 MHz band.**

*(a) Channels in this band are available on a shared basis only and will not be assigned for the exclusive use of any licensee. (b) Any base, fixed, or mobile station operating in the band must employ a contention-based protocol. (c) All applicants and licensees shall cooperate in the selection and use of frequencies in the 27-27.4 MHz band in order to minimize the potential for interference and make the most effective use of the authorized facilities. A database identifying the locations of registered stations will be available at <http://wireless.fcc.gov/uls>. Licensees should examine this database before seeking station authorization, and make every effort to ensure that their fixed and base stations operate at a location, and with technical parameters, that will minimize the potential to cause and receive interference. Licensees of stations suffering or causing harmful interference are expected to cooperate and resolve this problem by mutually satisfactory arrangements."*

[2] Petitioner requests the PRM be read as if the corrected paragraph had originally appeared therein as it now reads.

WHEREFORE, Petitioner corrects the clerical error aforementioned and respectfully requests the original Petition for Rulemaking be read as corrected.

Respectfully Submitted:

**Is. J James E. Whedbee**
